1) African Amber This beer erupts with a floral, hoppy taste, followed by a well rounded malty middle, finishing with a nicely organic hop flavor. Locally sourced two row grain and a blend of specialty malts give our amber its rich taste. Further complexity is achieved by leaving the beer unfiltered, providing exceptional flavor, as well as giving our amber its unique "cloudy" look. Lastly, we actually place a bag of fresh, locally grown, Yakima valley hops in each keg.

2) Two Tun IPA Mac & Jack's IPA is a refreshing, smooth, & balanced India Pale Ale. Using a variety of specialty malts and plenty of locally grown Yakima valley hops, we have created an IPA that has great hop flavor without being bitter. Pale roasted malts give our IPA a deep golden hue, and solid malt backbone, which nicely compliments its crisp hop finish. Copious quantities of hops are added very late in the boil giving the beer its floral aroma and hop forward character.

3) Cascadian Dark Ale Pale & dark roasted malts join together with generous portions of Yakima Valley hops in this unique new style of beer that was born in the Northwest. All the rich malty goodness you would expect from dark ale is accented by the hop kick of an IPA. Citrus and floral aroma is complimented by velvety smooth roasted malt flavor, followed by a distinctive dry hop finish. A Northwest style of beer which boldly exhibits the wealth of local ingredients that make this such a great beer region.
