Alpine Brewing Oroville

Alpine Oktoberfest

Amber colored and full flavored, it is brewed according to a classic recipe. Its rich malty aroma is balanced with a generous amount of hops. The conditioning time of 10 weeks guarantees the exceptional balance, smoothness and full body typical of true German beers. ABV: 6.4%

Alpine HefeWeizen

The golden color of this Bavarian style Hefeweizen indicates a full-bodied beer with a velvety smooth taste which accentuates its malty character. This delicate flavor is in harmony with the fruity, estery, banana-clove flavor one expects from Weizenbeers fermented with an original Bavarian yeast strain. Imported aroma hops provide a delicate, subdued balance to the natural sweetness of the malts. ABV: 5.2%

Alpine DunkelWeizen

Alpine DunkelWeizen is slightly darker than our standard Hefeweizen. Our original Bavarian yeast gives it the banana and clove flavors one would expect from a typical Hefeweizen. A generous portion of dark malt adds nutty, chocolaty flavors and gives it more complexity. Well balanced, a touch of spiciness, effervescent. A medium-light body makes it the perfect summer drink. ABV: 5.2%

Bale Breaker Brewing Yakima

Topcutter IPA

Our flagship IPA is a well-balanced yet aggressive West Coast IPA that showcases Yakima Valley hops at their finest. Late additions of Simcoe, Citra, Ahtanum, and Mosaic give this beer its complex citrus, fruity, and floral aroma and flavor. Named for a unique piece of farm equipment that removes hop vines from the trellis during the annual hop harvest, Topcutter IPA delivers loads of hoppiness all year long. IBU: 70 ABV: 6.8%

Field 41 Pale Ale

Don't be fooled by the powerful hop aroma of Field 41 Pale Ale. This perfectly sessionable, but generously dry-hopped, Pale Ale drinks easy with a smooth bitterness and is named for the hop field that is home to Bale Breaker Brewing. Light and refreshing, it's the perfect beer for a day on the river or afternoon on the slopes. IBU: 38
ABV: 4.5%

Dick's Pale Ale

A mild and pleasant ale with a touch of residual sweetness. Our pale ale is a solid, easy drinking beer that goes down smooth but doesn't sacrifice on flavor. Caramel and chocolate specialty malts are combined with premium northwest 2-row malted barley to create a light, amber colored Wort. We add just enough hops for a delicate bitterness, subdued hop flavor and a nice aroma. ABV: 4.8%

The name is referential to the founders of Thebes, warriors who sprang from the earth when the teeth of a slain dragon were sown by Cadmus. Made with 10% rolled oats, roasted barley, Crystal, Munich and chocolate malts. Bittered with Magnum, finished with Cascade and Centennial hops. IBU: 36 ABV: 7.45%

IPA

A highly approachable IPA with lots of hop flavor and aroma, mild bitterness, and a dry finish. Dosed late in the boil, as well as dry-hopped, this India Pale Ale focuses not on the bitterness in the finish, but instead on the flavor and aroma of the hops.

The aroma is full of spicy pumpkin, with a hint of cranberry and lemongrass. ABV: 6%

New Belgium Trip Series Segal Ranch Rye IPA

No-Li Brewhouse Spokane

Jet Star IPA

Jet Star utilizes a combination of malts which created a strong backbone without too much complexity on which to showcase this hop forward beer. Lots of citrus and pine in the hop profile from beginning to end. While this beer is loaded with hops, the bitterness comes off as assertive yet not overly coarse. Hop flavor and aroma really shine in the Jet Star. A clean, malty sweetness helps balance out this beer without being cloying. A billowy white head sits on top of a brilliantly clear light orange beer. IBU: 115 ABV: 8.1%

Expo Series Amarillo Red

A red ale as the name implies. This is another foray into the single hop beers like Solar Winds and recently Mosaic. The intent of this beer is to showcase the complexities of the Amarillo hop on a canvas of malty sweetness. This is the last of our Amarillo hops from the 2012 crop grown by the Gamash family in Yakima, WA. Look for bright hoppy citrus notes of grapefruit and tangerine. Bitterness is crisp while the hop character is rich, pungent and abundant. IBU: 60 ABV: 5.1%

It has all the taste characteristics of an IPA, but finishes clean like a lager. IBU: 64 ABV: 6.7%

IBU: 4 ABV: 5.5%

Punkin Porter

We take our famous Postal Porter which by itself is intensely dark with deep rich chocolate and coffee notes and blend in a bit of Pumpkin to make you think of turning leaves and cool fall nights. A perfect fall beverage which can almost be considered a comfort food. IBU: 46 ABV: 6.8%

Pokerface Blonde

Our best selling beer just continues to put smiles on faces. A nice malty start gives way to a little bitterness in the middle then finishes just ever so slightly sweet. Don't let the Pokerface fool you, it goes down remarkably easy. IBU: 22 ABV: 6.5%

River City Brewing Spokane

River City Red

“Wee Bit Malty – Crisp and Clean.” This beer is made from five different malted grains to give it just the right caramel red color, and then two different hop varieties. It is well balanced between the sweetness of the malted barley and the bite of the hops. Clean on the palate, this beer goes well with almost any food or makes a great session beer. We can debate about whether it fits into a red, amber or Scottish category, but we can’t debate its drinkability. IBU: 16 ABV: 5.6%

Girlfriend Golden Ale

The hallmark of a great girlfriend is how well you get along. This golden ale will pass that test. Using pale malt and light hopping, this easy drinking beer will get along with almost everyone. Whether you are new to craft beer, or a serious connoisseur, the straw color and crisp finish are inviting to all. This beer was once described as like a “biscuit with a touch of honey on it.” After a glass of it yourself, you will want to spend more time with your new Girlfriend. IBU: 6 ABV: 5.0%

VB Stout

Like most stouts, the VB Stout is a dark, rich beer with plenty of coffee and chocolate tones. In addition to most stouts, however, we add the distinct taste of organic vanilla and the essence of bourbon to make a complex beer with a symphony of flavor and a wide range of notes. Retired Head Brewer Laurie Kraus created this beer as a one-keg, one-time treat for our brewery Christmas party nearly fifteen years ago. IBU: 55 ABV: 5.6%

Huckleberry Ale

Using the uniquely Northwest flavor of huckleberries, we match it with a blonde ale backdrop to make a flavorful and refreshing treat for you. The beer starts with the unmistakable and strong aroma of huckleberries, but the taste of this not-sweet berry matches perfectly with crispness of the beer. Using very mild hops, this beer really stands out as an original. We use nothing artificial in making this beer, so enjoy its natural refreshing taste unlike anything else. IBU: 10 ABV: 5.0%

Riverport Brewing Clarkston

Hellsgate Hefeweizen

Traditional Bavarian Hefeweizen. This light and refreshing unfiltered Bavarian style hefeweizen's banana and clove notes come from the yeast used during fermentation. A high percentage of wheat malt makes this medium bodied liquid bread a nice late summer treat. IBU: 14 ABV: 4.5%

A nice crisp American Pale Ale made with 30% malted rye. Moderately hopped with pacific northwest hops, the bitterness nicely balances the spiciness of the rye. IBU: 35 ABV: 5.8%

Alpha Reign IPA

Fresh Hop IPA. Locally grown fresh or 'wet' hops are used late in the brewing process to showcase the aromas and flavors of the hop rather than concentrating on the bitterness. A pilsen base malt is used giving this higher ABV beer a nice light to medium body. IBU: 60ish ABV: 8.2%

Wallace Brewing Wallace, ID

Vindicator IPA

Named after the Vindicator mine in the Silver Valley, it is our biggest beer to date. A refreshingly mild flowery start with a nice rich, malty sweetness that balances the citrusy hop finish. Coming in at OG 1.079 and 80 IBU the Vindicator packs a wallop. We use the finest malted barley grown in Idaho along with pacific northwest hops.

1910 Black Lager

1910 Black Lager has all the characteristics of a German Schwarzbier (meaning black beer). Ours is smooth and light in flavor even though the color is dark with hints of coffee and a touch of dark chocolate. We accomplish this by cold steeping the dark malts for 24 hours prior to brewing. This process removes the strong bitter heavy flavors associated with dark beers.

Huckleberry Lager

Wallace Huckle Beer is a unique fruit beer based on a lager rather than an ale which is the norm for fruit beers. We decided to use the Idaho Select as the base for this beer because the Huckleberry is a delicate fruit that needs a light platform to stand upon so the flavors and aromas will be more pronounced. This fruit beer is a favorite of all who enjoy a light, zesty, refreshing summertime beer.

Redlight Irish Red Ale

The Irish Red style is a favorite among craft beer lovers and is a great introduction into the craft beer movement for the novice drinker. This beer has an attractive ruby red color that leads into a complex caramel malty experience with hints of biscuit, nut, toffee and cherry/plum flavors. With medium body and spicy/flowery mild hop bitterness this Red Light Red is sure to get hooked in for another.
